

JEFFREY CAIN

Software Engineer

jeffjcain@gmail.com (913) 954-9550 Weatherford, OK [linkedin.com/in/jeffrey-cain](https://www.linkedin.com/in/jeffrey-cain)

WORK EXPERIENCE

Software Engineer

Medtech Innovator

January 2024 - April 2024 San Francisco, CA
Full stack developer using PHP, JS, Typescript
Updating a Legacy website to handle new functionality and improve user experience

Web Application Developer

Libsyn

May 2022 - October 2023 Pittsburg, PA
Full stack developer using PHP, React, and MySQL
Create new features and fix bugs in an Agile environment utilizing 2-week sprints
Create Restful API functionality

Software Developer I-III

Paycom

June 2019 - May 2022 Oklahoma City
Full stack developer using PHP, JQuery, and MySQL for the back-end and React for front-end
Focuses on creating clean, scalable code for future projects

Projects

Website Domain Integration

Create a new field that allows podcasters to choose between different options for their podcast website (personal, Libsyn or Pair Domains)
Work with a separate company to create and utilize API calls to pass information across code bases
Connect user's request domain to Libsyn's domain register via DNSimple

Warnings for Employee Forms

Calculate and show warnings to the users when creating, viewing, and editing employee forms
Have multiple warnings to account for that would need to be calculated and viewable on any form
Create a functional back-end that could be reused across the code base and a visually appealing front-end

EDUCATION

B.S.

Computer Science

Kansas State University

August 2015 - April 2019

GPA: 3.724

Awards

Phi Eta Sigma Honor

Society Tau Beta Pi
